

# MBU Wifi wireless logon: Apple Devices

FAQ's at end of document

Connecting to the **MBU WiFi** wireless network requires:

- A. A connection to the wireless network SSID (identifier for a wireless LAN) from your device.
- B. Network account authentication to the wireless network.

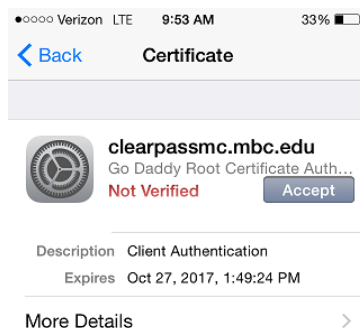

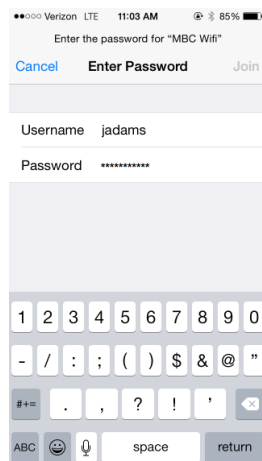

Here's a link to an outside source for alternative instructions:

MBU Wifi wireless logon: Apple Devices

03/2015 Rev.03

- 4) After you accept the certificate your network account will be checked for authentication, permissions, and set active. You are now authenticated on Mary Baldwin University's wireless network with access to the internet and some campus resources. **NOTE: Currently smartphones have limited ability to interact with campus resources other than web pages.**

### **FAQ's:**

- **What type of access do I have using my MBU account?**  
*Mary Baldwin University students and Faculty/Staff have assigned network accounts that allow access to internal MBU resources and the internet.*
- **How often do I have to login or authenticate to the MBU Wifi wireless network when I'm on campus?**  
*You should only have to logon once. Your device should cache your connection settings. If you are in range of an MBU wireless access point your device should automatically connect and roam on the MBU Wifi network.*
- **I did not press Accept on the certificate screen and I didn't get on the network. What do I do now?**  
*Go through the logon process again and accept the certificate(s).*
- **Will I always have to accept the ClearPassmc.mbc.edu certificate(s) each time I logon to the MBU Wifi network?**  
*No. If you choose **Forget This Network** under information screen for **MBU Wifi** you will have to accept the certificate(s) again.*
- **I was disconnected from the MBU Wifi network.**  
*You can logon again using your MBU assigned username and password anytime to reauthenticate.*
- **How do I disconnect from the MBU Wifi network?**  
*Go to **Settings – Wi-Fi**. Select **MBU WiFi** (checked off) and select **Forget this network**.*
- **I can't seem to connect to the wireless MBU Wifi network. What should I do?**  
*Shut down and restart your smartphone. Rebooting will help with any software problems on the device. Call the MBU Help Desk if you continue to experience connection problems.
